Simple Cache Cleaner For GTA 5

How to install ?

1- Download the program ANYWHERE You like.

2- Now you'll need to extract It. Right click "GTA5CacheCleanerCS.rar" to open Windows context menu and select the option "extract here".

**IMPORTANT*: You need a program called WinRAR to do that step (or any other .rar extractor, like 7Zip).

3- Now double click "GTA5CacheCleaner.exe", It'll ask you for administrative (elevated) privilegies, say yes. Done!

**IMPORTANT*: If You try to run the program without "MaterialSkin.dll", It won't start, since It is an extention of "GTA5CacheCleaner.exe".
